

ONE-DAY WORKSHOP ON Lean Project Management Best Practices

04th May 2018, KOCHI

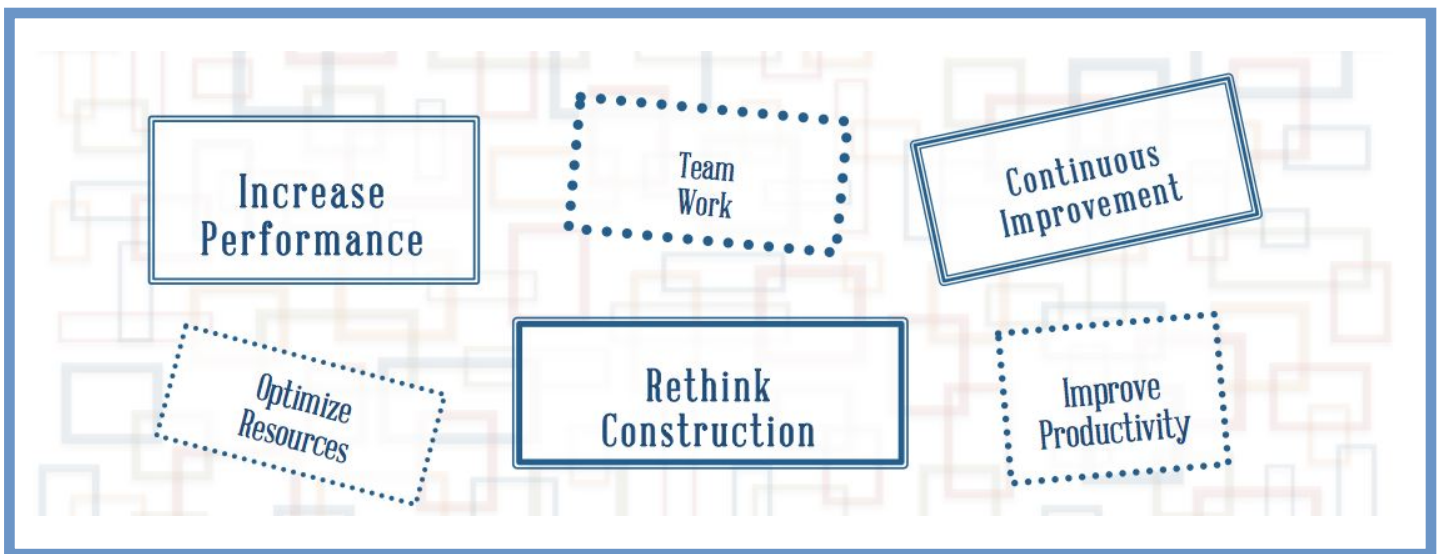

Establish a practical framework to plan, monitor and control construction projects using Lean Project Management best practices

In construction projects majority of activities gets completed during the fag end of projects, irrespective of the time schedule prepared in the initial phase. This causes quality issues, stress for professionals and profit loss even if the project is handed over on time.

A simple, structured and systematic way of planning the project using Lean Construction and Project Management best practices by involving every stakeholder at right time will ensure proper making ready of activities, better controlling of works & timely completion of project.

Fee: Rs 3,400/- + 18% GST
per participant

Venue:
Olive Downtown,
